DO'S & DON'TS

Do

- ✓ Reserve Bora Violet for real CTAs and selected states.
- ✓ Give every story section exactly one block color, full-bleed.
- ✓ Let Manrope weight, not size, carry body emphasis.
- ✓ Use Space Mono only for uppercase taxonomy.
- ✓ Add a Korean word or phrase only when it's true and earns its place.

Don't

- ✗ Wash a whole surface in violet — it's an accent, not wallpaper.
- ✗ Add drop shadows to color-block sections.
- ✗ Reach for saccharine baby-pink/mint gradient clichés.
- ✗ Set body copy in Space Mono.
- ✗ Run two violet primary CTAs in the same viewport.
